

Please find attached herewith E-form for NSS77th Round **version 3.7 for State Sample** based on the feedback received from the field. The same may be used for State sample. To use the already entered data in earlier version, steps given below may be followed.

Steps to install SE 77 Software State Sample, version 3.7

1. **Save** a copy the file **Nss77thRound.mdb** from the folder **C:\Nss77thRoundSurvey** to a **pen drive** or any other folder of your choice.
2. **Uninstall** SE 77 Software application version 1.6 (**Nss77thRound**) from control panel
3. **Download new setup (Nss77thRoundCentralSampleSetup.msi)** for SE 77 Software application **version 1.7** from the link given below:
4. **Install** the downloaded software at step 3.
5. **Copy** the file **Nss77thRound.mdb** from the **pen drive** saved at step 1 to the folder **C:\Nss77thRoundSurvey** replacing the existing file.

Please note that, data of all those FSUs submitted through earlier version if any, should be imported in the new version, validated and submitted again for further processing.
