Development of data entry modules of Price, ASI and IIP

This sub activity is included in the activity-

Item No.- 1- Statistical Application- It includes Development of offline/online data entry modules for different statistical products/reports generated by DES and line departments, formation of databases and its subsequent synchronization with State Statistical Portal.

(A) Data entry modules of Price, ASI and IIP have been developed and are in use across the district offices of the division. The objective of the Development of various modules is to capture data in a web-based interface over internet. The purpose to develop the modules is to capture data from field-level offices and save it in a Centralized Database created at Head-Quarter. This data may be retrieved later as required.

The work is outsourced and completed by Uttar Pradesh Development Systems Corporation Ltd. (UPDESCO), Lucknow, Uttar Pradesh.

Expenditure- 0.42 crores approx.

(B) Data entry and Reporting Modules of CDMPR, Local Bodies, Budget Classification have been developed with the help of own resources of DES. by the personnel of Computer Cell of DES, Hqr. These are completely in-house development and no external agency is involved.

Besides this, **Web based Data Entry and Reporting Module** for Preparation of Village Level Statistics is prepared by National

Informatics Centre, State Unit, Lucknow. 41 Village level basic facilities information is entered on Sankhikiya Patrika (SPIDER) web based portal hosted at NIC through district level offices of DES. Tables of distance wise availability of basic amenities is available online in the Sankhikiya Patrika (SPIDER) portal. The purpose behind is assessment of access to basic facilities existing in villages.
